

THE BIG PICTURE

Bring out the creativity and imagination in your team! The Big Picture is a highly adaptable and entertaining team building activity which encourages team members to work together in order to achieve success and stardom!

Available for groups of any size, this team building activity can be hosted inside or out and is completely flexible to meet your requirements and objectives.

After being split into teams, participants are given a video camera, a box of props and a plot. From here they have everything they need to write, direct, and star in their own movie.

Each prop box contains different items with a different theme but the plot of the movie is the same for each team and can utilise the company values and brand architecture.

In order to produce a blockbuster it is essential to work together, forward plan and ultimately recognise the importance of the big picture.

Optional Added Value

A Night at the Oscars – Theming

Finish the day with our interactive theme 'A Night at the Oscars' where participants arrive to the flash of paparazzi, the thrill of the red carpet and the opportunity to even walk away with an Oscar or two.

Guests feel as though they have stepped into another world as they enter the venue. Utilising elegant props and subtle lighting we transform the venue into a decadent rich world reminiscent of old Hollywood. Guests may find an entertaining Charlie Chaplin seated at their table or a melodramatic Marilyn Monroe.

This theming is perfect for a gala dinner. As the lights dim between courses, the nominees are announced and the edited movies are shown on the big screen.

Interactive Theme from \$80.50pp
